

How to make a cheer bow

Hello everyone!

Today we want to show you how to make three different kinds of cheer bows. We will teach you how to craft a big and a smaller bow for your hair and also one to decorate your shoes.

Disclaimer

Please be careful with the glue, as it is a really strong adhesive and can burn your skin! You can ask a parent or guardian to supervise or help you.

Now lets start!

The Big Bow

You need a hair tie, a normal tie, super glue, a 25cm ribbon and a smaller slim ribbon.

First you align the ribbon to look like the picture above.

Then you scrunch it like this.

Next you take the tie and secure the ribbon in its bow-like shape.

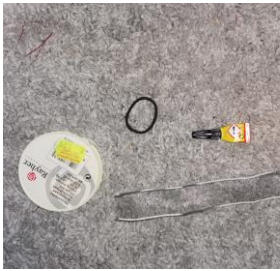

Then you glue the bow to the hair tie.

Lastly you cover the tie with the smaller piece of ribbon by wrapping it around and glue the ends.

The small bow

You need a 10cm ribbon, a nylon thread, a hair tie and super glue.

First you make a loop by glueing the ends together like so.

Next you take the nylon thread and tie the loop together in the middle to make a bow.

Now you only need to glue the ribbon onto your hair tie.

The shoe bow

You need a 7cm ribbon, a nylon thread and super glue.

You form a loop by glueing the ends of the ribbon together.

Form a bow by tying the loop in the middle with the thread like so.

Have fun with your bow!
Here are some examples how you can wear them.
